What are the CReSt MDRGs?

Groups to bring together clinical and non-clinical researchers, and patient and public representatives in Wales to collaborate on new projects.

Groups will meet in person once a year, and online once a year.

Discover:

Twice-yearly meetings will showcase inspiring speakers and provide knowledge-sharing and networking opportunities

Develop:

Groups will start collaborations and build relationships with dedicated networking time and breakout spaces

Deliver:

Groups will create tangible outputs based on the collaborative relationships formed, and ideas created at/following the meetings

What are the group themes?

Based on the CReSt strategy, the group themes are:

- Precision and mechanistic oncology
- Immuno-oncology
- Radiotherapy
- Cancer clinical trials
- Supportive and palliative oncology
- Cancer prevention, detection, primary care and health services research

How do I join?

Follow this [link](#) to sign up to one or more CReSt MDRGs

Where can I get more information?
